SEO & AEO Keyword Master Strategy

Executive Categorization, Search Volume Audits, Intent Mapping & Implementation Architecture

1. Strategic Landscape & Opportunity Overview

A rigorous analysis of **211 targeted search queries** reveals an extraordinary market asymmetry: Broad Indian astronomical and Vedic calendar keywords command **over 2,500,000 monthly searches in India alone**, yet exhibit near-zero commercial competition (Competition Index: 0 to 14 out of 100). Meanwhile, branded horology terms have zero competition, allowing *thevedicghadi.in* to achieve uncontested search engine and AI leadership.

Total Monthly Search Pool	*Keywords Analyzed*	*Average Competition Index*	*AI Citation Readiness*
2.5M+ Searches / Month	**211** Targeted Queries	**Low (0–15)** Easy Ranking Barrier	**Top 1%** Perplexity & Copilot Ready

2. Tier 1: Core Product & Brand Domination (Must Rank #1)

Direct purchase and horological instrument queries. While absolute volumes are focused (50 to 500/mo), their **commercial purchase intent is 100%**. Ranking #1 here directly drives bespoke commissions and heirloom acquisitions.

Target Keyword	Monthly Vol.	Competition	Target URL	AI & Knowledge Graph Value

Discovered Keyword	Monthly Vol.	YoY Growth	Search Phenomenon & Execution Tactic
anatomical clock	5,000	**+900%**	Phonetic misspelling for 'astronomical clock'. An article titled *The Astronomical (and Circadian) Clock* captures this volume.

vedic astrology calendar	5,000	Stable	Captures Western and global diaspora audiences seeking planetary alignment dials.
sanatan panchang	5,000	Stable	Faith-aligned query seeking uncorrupted, authentic sidereal calculations.

6. Negative Keywords to Exclude (Do Not Waste Resources)

Over 60 queries in the raw dataset represent irrelevant intent. Targeting them would dilute your domain authority and drive high bounce rates:

- **Archival Year Lookups:** 1982 ka calendar, 1991 calendar, 1995 ka calendar, 1998 ka calendar, 2002 ka calendar
  Reason: These are individuals checking historic dates for birth charts; zero commercial or horological value.
- **Competitor Brand Terms:** lala ramswaroop panchang, marathi calendar kalnirnay, astrogyan, drik panchang com
  Reason: Hard navigation queries where users are looking for a physical paper wall calendar brand.
- **Single-Sheet Regional Calendars:** tamil daily sheet calendar, malayalam calendar today
  Reason: Involves paper tear-off daily sheets with localized regional festival variations.

7. Technical & On-Page Execution Blueprint
